APPENDICES

Appendix H: Feedback Survey Information

The Feedback Survey provides an opportunity for you to reflect on the Collaborative Exchange process. Based on your feedback, we can build on the more valuable aspects of the initiative and modify other components so that they best reflect the needs of grantees.

I. What are the most valuable aspects of CE for you, and why?

II. What aspects of the CE process have not been useful to you, and why?

III. Do you have suggestions for additions or modifications to the CE process?

This form should be submitted within three business days after the site visit and is required from each Site Visit Team member before the visit is considered complete.
