APPENDIX H: OUTCOME STATEMENT
INFORMATION

The Outcome Statement is written after an Exchange Team has completed all eight site visits. This document must be written with the collaboration of all Exchange Team members.

The Outcome Statement should address the following three questions:

1. How did the Exchange fulfill its mission?
   - Refer to the Mission Statement and goals and objectives developed early in the program and compare them to the outcomes. This comparison should provide a basis for answering the question.
   - If the goals and objectives were revised during the grant period, the reasons for the revision would provide information to inform the answer to this question.

2. How did the Collaborative Exchange Process aid or impede the realization of the mission?
   - Describe any factors related to the CE that helped move the project toward improving teacher quality and/or those that contributed to slowing down the process.

3. How did the Collaborative Exchange Process benefit the individual projects?
   - Although the eight projects that make up an Exchange Team have many things in common, each project has its own, unique way of measuring success. This section should address issues related to individual differences.

The Outcome Statement should be submitted via the CE Intranet ten business days after all Exchange Team site visits have been conducted.
